

Diamond Mind (Redemption Beats in Every Desperate Heart)

Music & Lyrics by Stephen Smoke

Em C G D
I talk to Angels...and they talk to me
Em C G D
Sometimes I listen, sometimes I let it be
Em C
(And just) ride the night
G D
Relax into the flight
Em C G D
Follow the darkness...into the Light
Em C G D
It's gonna be all right

Em C G D
Looking for treasure...in the Diamond Mind
Em C G D
While pirates cut cards...for what I might find
Em C
Whatever song I write
G D
It's just lyrics to the night
Em C G D
Ain't the first time...I seen city lights
Em C D G
This time I'll get it right
F C
This time I'll get it right ('cause)

Refrain:

Em C D G
Redemption beats...in every desperate heart
Em C D F C
Redemption beats...in every desperate heart

You're always at the crossroads...Now is always where you start
You can get there from here...but you need not depart
Just go with the flow
Like a falling domino
Ride the waves...of your White Light Show
Take a breath and let it go

(You) Choose thoughts like paint...from a color array
Stream light into the world...let your senses play
Life's suddenly aglow
A live action van Gogh
It's a gallery of you...a moving picture show
You really oughta know (that)

Refrain:

Redemption beats...in every desperate heart
Redemption beats...in every desperate heart

Life's many facets...sparkle...on magic screen
Love is bright...casting shadows in between
What is and isn't seen
Beliefs become your dreams
Then you decide...what it all really means
(And you can) make it all right

You can get lost in the Diamond Mind
If you leave your compass far behind
Can't chart your flight
Without some light
Chasin' ghosts...through a starless night
Let it go it's all right... ('cause)

Refrain:

Redemption beats...in every desperate heart
Redemption beats...in every desperate heart
