

Truth is a Feather

Words and Music by Stephen Smoke

G C G C G
Truth is a feather weighin' heavy
Em D G C G
On the shoulders of an honest man
G C G
It ain't much of a burden
Em D G C G
On the shoulders of the modern man
G C G C G
You say you want to change your life
Em D G C G
It's really not that hard to do
G C G C G
One thing I can say for certain
Em D G C G
Change your life, or life's gonna change you

G C G
People say things that fit the moment
Em D G C G
That's because they are afraid
G C G
They mostly say whatever
Em D G C G
Words that fit the masks they made

Refrain:

C G
Don't make you wrong
C G
Don't make you right
C F C G
Just helps you make it through the night
C G
Don't make you good
C G
Don't make you bad
C F C G
Might make you wonder what you really have

2nd Verse

People say truth is a moving target

Well, I guess that's up to you

In the end you gotta find a balance

(So when you set your sights) you know your aim is true

People make up life as it happens

Living takes up most of the time

In the end it comes down to believing

That there really is a grand design

3rd Verse

Faith ain't enough for some people

They need to understand

But they wind up wishin' and a hopin'

In the end that really ain't much of a plan

When people say things that offend you

Says a lot about them, even more about you

It tells me that your faith is lacking

In what you really think is true
